

Please do not alter our IN no-call list! The banks who are contesting it send me enough snail-mail to wallpaper a house, and I like my phone just as it has been under the no-call restrictions our AG set up. Please do not allow big business to once again disturb us in the middle of meals, interrupt our studying, or our favorite TV shows with their obnoxious sales pitches. Their mail is reaching me just fine (as if I'd wanted it), and they have TV commercials, another thing that's ruining the relaxation of watching TV in itself. Do not tamper with our system, as, in my humble opinion, it's working just as designed and needs no tweaking!
